The Joint meetings began on Sunday March 31, 2019 at the Sheraton Grand Hotel in Sacramento. California Labor Federation (CLF) consists of 1200 affiliated unions representing two (2) million union workers.

Working in three major areas, the CLF: 1) helps pass laws that protect California’s families and strengthen workers’ rights. 2) helps bring about large political victories in California and 3) helps leverage our resources, political power and negotiating power. Together we are the California Labor Movement.

Most of these union members have not heard Sara Nelson as a speaker. They were overwhelmed. I heard some of them calling her “a firecracker”. Others called her “a rocket”. All in all she got the point across.

Senator Kamala Harris was the keynote speaker. She announced that she is running for President of the United States of America in 2020. Speaker after speaker was concerned of the future and the plight of working people. Art Pulaski, executive Secretary Treasurer of the CLF said, “Now more than ever, we need elected officials who are committed to the fight and are willing to stand with working people ... to advance progressive policies to make the lives of working families better.”
LEGISLATORS WHO STAND WITH LABOR 100%

Congratulations to the Legislators with 100% Labor Voting Records in 2018. There were Eighteen (18) State Senators and Twenty-one (21) State Assembly Legislators.

In 2018, this did not come easy but with perseverance, it paid off causing a blue wave. Keep up the hard work to stop the worker displacement from automation.

LOBBRYING

On Tuesday and Wednesday, we went to the capital to do lobbying.

Advice from CWA’s lobbyist, Ignacio Hernandez, “There are 2600 bills out there... Give your pitch in 30 seconds ... Make it good ... relate to it ... Wear the red scarf ... They will remember the scarf.” Other thoughts: Speak from the heart; Bring up examples; Tell the Truth; Stay on Right side of Issue; Know something about the legislator; Ask if we can count on their support.

Here are assembly bills that have huge potential to benefit workers. The LA Fed and CWA support passage of these: **AB 5** - Protects employees from being misclassified. **AB 378** - Gives collective bargaining rights to state-funded family child care providers. **AB 1066** - Unemployment for strikers. **MORE**: Some CWA sponsored bills: **AB 1677** Call Centers – Keep jobs here. **SD 336**: Stop Worker Replacement and Worker Displacement. **AB 485** Distribution Centers. **AB 731**: Health Care Costs. **AB 1124**: Protect Workers in Wild Fires (Smoke). **AB 1505**: Charter School Reform.
Give more authority to Local School Boards. **AB 183**: Consumers & Workers, **AB 1366** VOIP – unregulated Phone Service (OPPOSE)
