**Or will it be?** “COVID-19/Corona Virus“ is killing people.

The Hill reported on December 3, 2020, President-elect Joe Biden plans to get Americans to wear masks for his first 100 days in office. On December 10, 2020, VA announced a preliminary plan for distributing the COVID-19 vaccinations. VA will first provide vaccinations to front-line health care workers and Veterans residing in long-term care units. The vaccines must be stored at extremely cold temperatures. The centers were chosen for their ability to vaccinate large numbers of people and store the vaccines at extremely cold temperatures.

USA TODAY on December 14, 2020 announced that healthcare workers across the US got the first COVID-19 vaccine to be administered. A nurse in New York City became that state's first to receive the first dose of the Pfizer COVID-19 vaccine. It was the first authorized in the country to fight the coronavirus. Sandra Lindsay, the critical care nurse at New York's Long Island Jewish Medical Center, said after she received the shot, "I feel hopeful today." What worrisome and hopeful days these are. All I could say is, "Hang in there; this too will pass. "
