Post-Production Audio Engineer – Daily Hire

JOB DESCRIPTION

Walt Disney Television (WDT) is seeking an experienced Post-Production Audio Engineer to support marketing and promotional teams within the FX Networks and Fox business partners. These teams use Pro-tools, Avid S6 consoles, compressor limiters, and a collection of plug-ins in a fast turn television broadcast environment. The ideal candidate must have excellent communication skills and be able to train, interact, and develop relationships with mixers, producers, creative directors, and management. Please note this is a technical support position which does not perform any mixing, producing, or recording sessions.

Responsibilities:
- Configure, maintain, and troubleshoot Avid Pro-tools systems, S6 consoles, and their connectivity.
- Test and troubleshoot audio signal path on outboard and non-linear systems.
- Configure and maintain audio software and plug-ins such as Waves, Izotope and Cedar Studio.
- Troubleshoot and repair outboard audio hardware such as compressor/limiters, noise gates, equalizers.
- Configure, maintain, and troubleshoot Telos ISDN codec.
- Maintain and troubleshoot storage environments including SAN, NAS, LTO, and cloud backup workflows.
- Maintain and troubleshoot Ethernet and fiber networks, switches and routers.
- Maintain audio FX database and rights management systems such as Sound Miner and FilmTracks.
- Ability to determine advancements in field of audio and test new technology and applications.
- Knowledge of media asset management systems.

Requirements:
- Four-year college degree or equivalent work experience preferred.
- At least 3+ years of work experience as an audio technician or engineer in audio post-production.
- Thorough knowledge configuring and troubleshooting Protools hardware and software, S6 consoles, and outboard compressor/limiters.
- Thorough knowledge of audio plug-ins - Waves, Izotope and Cedar Studio.
- Experience with troubleshooting fiber and ethernet networks.
- Experience with SAN, NAS and LTO storage systems.

Candidates who seek employment with WDT must be available to work any shift in a 24/7 facility. This is a NABET daily hire position and requires candidate to join the union.
